ATTACK IS RENEWED

Schley's Fleet Again Assails Santiago's Harbor Defenses

INSURGENTS SUPPORT HIM FROM THE LAND SIDE

Kingston, Jamaica, June 2—Special—A great naval battle is expected off Santiago today. Nearly every warship in the fleets of Sampson and Schley is in front of Santiago harbor. The Oregon is with the squadron. The British cruiser Indefatigable arrived at Port Antonio yesterday, having left Santiago Tuesday. The Indefatigable reports that seventeen ships were seen in Santiago harbor. This is supposed to include the full strength of Cervera's fleet, and some of the seventeen are probably merchant vessels.

New York, June 2—Special—A Port Au Prince dispatch says the American fleet renewed the attack on the forts at Santiago this morning, and the insurgents simultaneously began a land attack on the place from three sides.

Well Carried Out.

Cape Haytien, June 2—Special—Commodore Schley's assault upon the forts at Santiago was more than a reconnaissance. It proved to be a well planned movement to weaken the forts protecting Cervera's refuge in the inner harbor, and succeeded beyond expectation. Morro castle is a ruin, utterly worthless for purposes of defense, while several of the lesser fortifications have been dismantled. The work of the early week has opened the way for an entrance to Santiago bay, where Schley may engage the Spanish ships without danger of much interference from the shore batteries. It is believed that this is his purpose, and that ere many days he will steam into the harbor with his full force of ships and utterly annihilate the Spanish squadron. A land force of American regulars supported by Cuban insurgents will be in the environs of Santiago within a few days, and from the heights surrounding the bay can do effective work. It is predicted here that the boasted fleet of Cervera will be a thing of the past within ten days.

Gonzalez Basely Shot.

Tampa, June 2—Special—Cubans here are in an indescribable state of fury over the new just received that Gen. Gonzalez, a prominent insurgent leader in Santa Clara, has been shot after a drumhead court martial held by the Spaniards at Villa Clara. Gonzalez was slightly wounded and captured during a skirmish at Sagua De Chica river. Gen. Bernal gave the bishop of the district his word of honor that the prisoner would be well cared for, but a few days later he was executed.

A Quadruple Alliance.

Washington, June 2—Special—Talk of a quadruple partnership of powers is being indulged in. It is known that Germany is extremely anxious to join America and England in a defensive and offensive alliance, and now Japan is making covert overtures with the same object in view.

No Prospect of Intervention.

London, June 2—Special—It is learned that attempts at intervention between the United States and Spain have been discontinued entirely. The powers have been made aware that President McKinley will not consider any proposals except such as are based on the evacuation of Cuba by Spain.

War Appropriations.

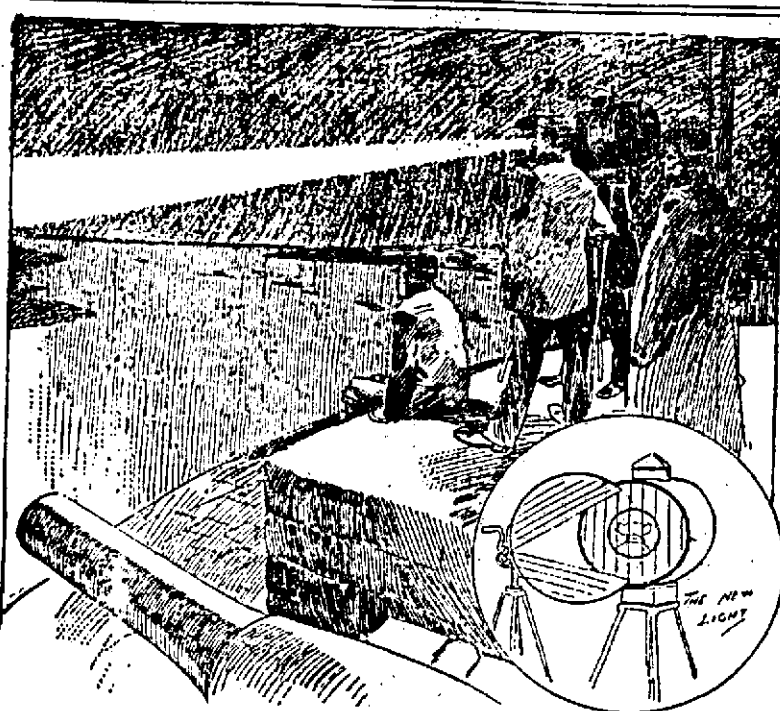

Washington, June 2—Special—Secretary Alger wants an appropriation of about fifty millions on account of the second call for troops. The amount so far appropriated by congress on account of the war is approximately three hundred and seventy five millions.

Arms For Spain.

Paris, June 2—Special—It is learned that large quantities of ammunition are being sent across the Pyrenes into Spain. The French authorities are not seeking to prevent this, and many French and Belgian firms are engaging in the profitable traffic.

A Mistake.

Key West, June 2—Special—The rumor of the capture of the Alfonso XIII was a mistake.

BRIEFS FROM BELOIT TOO MUCH INSURANCE

Many Weddings, Past and Prospective Announced in The Line City

Beloit, Wis., June 2—[Special]—Guy Chapman and Miss Maude Denning, of this city, were married yesterday noon at the home of the bride, Rev. W. A. Spinney officiating. The ceremony was strictly private. The young couple went away for a brief wedding trip. Both are well known in this city, and have many friends, who wish them happiness.

The announcement of the marriage of Fred Warner, of this city, and Miss Edith Eldred, to take place June 18, has been made.

The announcement of the marriage of Roy Rockwell, of Chicago, and Miss Alice Brittain, of this city, daughter of Mr. and Mrs. William Brittain, the banker, is made, and the wedding will take place some time in September. Miss Brittain is a favorite of Beloit's society belles.

John Mills, of this city, and Miss Sadie Lavin, of Oregon, will be married next Wednesday, June 8, at the home of the bride, in Oregon, Wis. Miss Lavin was dining room girl at the Goodwin House, in this city, for some time, and from here went to Janesville, where she has been dining room girl at the Grand until a few weeks ago. The young couple have a large number of friends here who hope they will have a bright future. They expect to reside in Beloit.

George Sherwood and Miss Amber Payne will be married next Wednesday at the home of the bride on Emerson street. Miss Payne is favorably known in society circles, and Mr. Sherwood has many friends, having spent most of his life here.

Last night the Modern Woodmen paraded the streets, working up a crowd to attend the picnic at Rockford today. About two or three hundred left this morning for the picnic. Next year it will be held at Beloit.

PRISONERS GET A TREAT

Organ Grinder Favours Jail Residents with a Concert.

Prisoners in the Beloit county jail were given a musical treat this morning that seemed to give them a new lease of life. The Italian band organ man, who has this week been murdering the popular songs of the day about town with the aid of a badly out-of-tune organ, visited the jail and applied for admittance. He carried with him a gayly dressed little monkey, which so impressed the jail officials that they could not turn the outfit away. In both corridors the organ poured forth all the popular airs of the day, and the sum the little monkey collected of the dozen prisoners, well repaid the Italian for his trouble.

Government Expense Grows.

Washington, June 2.—The expenditure statement of the receipts and expenditures of the government shows during May, 1898, the receipts amounted to \$30,074,818 and the expenditures to \$47,849,909, leaving a deficit for the month of \$17,800,000. This deficit is accounted for by the increased expenditures on account of the war.

Victim Of a Recent Fire Is Alleged to Have Carried Two Policies.

Max Pfennig, the well known insurance man, was on the alert this morning looking into the mystery that surrounds the origin of the fire that destroyed a portion of the Tallman block on West Milwaukee street last week. Mr. Pfennig says that one of the parties burned out came to his office a short time ago and took out a \$500 policy on his stock, and when asked if he carried any other fire policy on the same stock, said he had none. It now appears that he had a \$500 policy on the same stock with another company, and that the company have already paid him a \$200 loss.

Mr. Pfennig now wants the party arrested, and was consulting District Attorney Jackson today in reference to such a move.

Acting Mayor Brought Into the McLehlan License Case

Turkey Brown served papers on Acting Mayor S. O. Barnham this morning in the case of the City of Janesville vs Alex. McLehlan.

The papers were the same as those served on City Clerk Badger yesterday, and were today served on Acting Mayor Barnham on account of the absence of Mayor Thoroughgood from the city.

No new developments were noted in this now celebrated case up to a late hour this afternoon, and at last accounts Mr. McLehlan was master of the situation.

S. R. Rice Makes a pilgrimage from Clinton to Janesville

S. R. Rice, a well known resident of Clinton, walked to this city yesterday and on his arrival stated that it was his intention to walk back. A message to Chief of Police Hogan notified the officers to be on the lookout for the pedestrian but before they could take him in hand he boarded an outgoing evening freight on the Northern road and returned home. Rice is said to be slightly deranged at times as the result of illness and it was during one of these spells that he started out on his feat of pedestrianism.

MAY SELECT A NEW LOCATION

New St. Paul Passenger Depot May Go Academy Street.

H. B. Earling, superintendent of the Mineral Point division of the Chicago, Milwaukee & St. Paul railroad, was in the city today, and spoke as though his company favored the building of a passenger depot in this city in the near future.

When such a structure is built Superintendent Earling is of the opinion that it will not be erected on the site of the present structure, but between Academy and High streets, where the company have more land. When the officials were in the city yesterday they spent considerable time in looking over the ground between Academy and Jackson streets.

Whiton, Jr., consul for the League of American Wheelmen, has notified State Chairman Schaller at Sparta, accepting the date of September 10 for the giving of a state league cycle meet in this city. The meet will no doubt prove of great interest, for it will bring together the best cyclists in the west.

SPAIN IS IN EXTREMITY

Belief in London That the War Will Soon End

DONS CANNOT GET MONEY ENOUGH TO PROSECUTE IT

Washington, June 2—Special—It is the prevailing opinion here among both naval and military men that the demonstrations against Santiago will not delay military operations in other parts of the island of Cuba. While Santiago is no doubt a point of great strategic importance, its fall would not have the moral effect of the capture of Havana. Doubtless Cervera's fleet in the port will soon be put beyond the possibility of doing harm, but in the meantime Blanco will have his hands full at Havana. Many native Cubans recently refugees in the United States have been landed on the island plentifully supplied with arms, and have ere this joined the insurgent forces. Several regiments of United States troops will also be landed this week, and will co-operate with Gomez in a movement upon the capital which, supported by the American fleet in the bay, cannot fail of success. Great secrecy is maintained as to the movements of troops, but it is learned from the best of authority that this is the plan of the campaign.

A Short War Predicted.

London, June 2—Special—It is the general opinion in official circles here that the Spanish-American war will not continue a month. Spain's financial condition is far graver than most people suppose. The nation is absolutely without credit, and her home resources have already been taxed to the uttermost. The revenue heretofore obtained from Cuba and the Philippines is now no longer to be had, while the demands of the army and navy have become greater than ever. It is said by some well informed officials that the fleet in command of Camara will never sail from Cadiz, as the ships are sadly in need of repairs and rearmament, while there is no money available for either purpose.

Gone to Santiago.

Washington, June 2—Special—The first part of the expedition to Santiago is reported to have left the Florida coast. The detachment consisted, it is said, of a battalion of engineers, and siege guns to be used in occupying the hills around Santiago, field trains and infantry men. The men were in high spirits of prospect of active service.

In a Bad Fix.

London, June 2—Special—Local bankers have received telegrams from Madrid saying the financial position is worse than press dispatches show. It would cause no surprise to hear that the Bank of Spain had suspended specie payments.

Ready to Sail.

San Francisco, June 2—Special—The monitor Monterey is now ready to sail for Manila. Her consort, the Brutus, will be ready shortly and both may leave for the Philippines on Saturday.

Embarking at Mobile.

Mobile, June 2—Special—The forward movement has commenced from Mobile. Four troops of the second cavalry are boarding the transport Stillwater, which is all ready for sea.

Cargo Confiscated.

Key West, June 2—Special—The British steamer Restormel has been ordered released, but her cargo of coal will be confiscated.

Nothing Official.

Washington, June 2—Special—Up to noon the navy department has received nothing official regarding the bombardment of Santiago.

Will Hasten Operations

Washington, June 2—Special—Spain's financial panic may hasten operations against Porto Rico, lest the prize slips from our grasp by the sudden termination of the war.

All the exercises are to be held at the Myers Grand and a small admission fee of ten cents will be charged each evening to keep out disinterested parties and also to pay for the music.

On Friday night the Alumni Association will give their reception to the class. The plans for the reception are progressing finely and it promises to far surpass all previous efforts of the association. The reception is to be held in the new Odd Fellows hall, an ideal place for such gatherings.

The exhibit will comprise different articles of wearing apparel which have been made by the girls of the sewing class at the building and various articles of food, the result of the culinary skill of both girls and boys. Light refreshments prepared by the class of cooking will be served to visitors during the day. Specimens of the work done by the boys of the manual training department will also be on exhibition, although Prof. L. D. Brode has decided not to make any special exhibit such as the department is capable of doing. The public is invited to attend the joint exhibit next Wednesday. Among the articles on exhibition will be a large book case which is being made for the High school reading room and one which one of the pupils has made for himself.

WILL HAVE NEW UNIFORMS

News Agents Required to Attire Them-selves in Gray

News agents running into Janesville on the Chicago, Milwaukee & St. Paul railroad have been ordered to appear in uniforms and the order must be lived up to for all time to come. The uniform in light gray in color, and resembles the ones worn by local mail carriers. "We have been making a little money selling extra papers since the breaking out of the war," remarked an agent on the Milwaukee passenger train this morning, "and the railroad company is now trying to make us dress up in uniform just to give their road a little better appearance. You can see it is an extra expense on our part, but then what is a fellow going to do? It is simply a case of live up to the order or quit."

ALMOST A SERIOUS FIRE

Timely Discovery Saved Heavy Loss to Moses Brothers

Moses Brothers, the West Milwaukee street furniture dealers, are congratulating themselves today that a lucky accident prevented the destruction of the establishment by fire last evening. As the store was about to close their store for the night about 9 o'clock a gentleman in the place called their attention to a small fire in the rear of the building. It was found to proceed from a couch that had been brought to the store for repairs. The flames became threatening and the couch was picked up and thrown into the rear yard where a few buckets full of water extinguished the fire. The origin of the fire is a mystery. It is supposed, however, that someone after using a match carelessly tossed it upon the couch.

Mr. Kueck, it will be remembered, is a son of ex-Alderman C. H. Kueck, and has been employed in The Gazette office for several years. Recalled in Co. A. at the first call for volunteers, and has gone to the front with the First regiment. His old associates in the union testify their regard for him as a man and their love for the cause in which he is enlisted by a very commendable act of generosity.

Kvale, of Orfordville, performed the ceremony in the presence of a large number of the friends of the couple. Miss Edith Larson, sister of the bride, acted as bridesmaid, and Ben Plowright was groomsmen. The bride was remembered handsomely by her friends, her wedding gifts being numerous and costly. Mr. and Mrs. Wimbler have gone on a brief wedding trip, and on their return will go to housekeeping in this city.

CARS GOT BADLY MIXED UP

Freight Train Wrecked on the St. Paul Road Near Madison

A freight wreck on the western outskirts of Madison this morning was the cause of the late arrival of the Madison-Chicago 9:30 passenger train on the St. Paul road into this city. The wreck was a bad mix-up of seven box cars on the Chicago, Milwaukee & St. Paul road, which were piled fifty feet into the air. The passengers were obliged to change cars at the wreck, for it will be some time before the track is cleared. The baggage was all held for a later train.

The cause of the wreck is unknown.

GERMAN CATHOLIC BENEVOLENT SOCIETIES MEET

Patriotic Address by President Kersten—Status of the Oshkosh Strike—Scotch Cheese Buyer Making a Tour of the State—Pensions and Postoffices.

Appleton, Wis., June 2.—The work of the German Catholic Benevolent societies was closed yesterday with the election of officers and the selection of the next meeting place. The biennial convention was declared to be a thorough success and the next meeting will be at Fond du Lac in 1900. Theodore Kersten, of Oshkosh, was re-elected president of the State Verband and Anton Bickel, of Milwaukee, will be for the next two years as before the corresponding secretary of the body.

The event of the convention was the stand taken on the subject of patriotism and the standing by such institutions of the land as the liberty of the press and refusal to institute boycotts. With the opening of the session President Kersten took occasion to speak on the subject of citizenship from a Catholic standpoint and officially administered a rebuke to one of the invited speakers who offended last night by the tenor of his remarks on Catholics as American citizens. Mr. Kersten called the attention of his hearers to the fact that they must be careful and discriminate between the utterances of speakers who might present unauthorized views and the official statements of the societies. He said practically that the Catholics are as loyal to the government as any other citizens and that they do not need to be taught their duty to the stars and stripes, for the flag of the nation is above all and upheld by all alike.

THE OSHKOSH STRIKE

Gompers is on Hand and a Settlement is Looked For

Oshkosh, June 2.—Mr. Gompers came in on an afternoon train yesterday, and was met at the station by a delegation of strikers and escorted to the South Side Turner hall, where he participated in the regular daily meeting of the strikers. In the evening he addressed a packed house at the North Side Turner hall, speaking on the relations of labor and capital in general and of the circumstances of the local strike as he understands them. He left at noon today for Kenosha to look into the conditions there.

It is not taken that Mr. Gompers' visit here will bring about any change of front on the part of the strikers or any change of program. Rather it will stiffen them in their determination to hold out for their claims. It seems to be considered that Mr. Kild has managed the affair very well.

The conferences are still in progress but nothing definite can be told of them until the last of the week. The strikers are not maintaining as perfect order as they did. They have begun to annoy non-union operatives.

The Junior Endeavor society of the Presbyterian church held a missionary entertainment at the church parlors last evening, the proceeds of which went to the cause of missions in Alaska. The program consisted of recitations by Cora Holt, Dottie Collins and Russell Zeininger, and piano solos by Walter Ailes and Laura Bump, concluding with a very bright missionary exercise, "The Petters That Tell," introducing songs and recitations and being unusually interesting. Lemonade and wafers were served, and all present expressed themselves highly pleased with the entertainment.

RAILROAD MEN ARE BUSY

Crowds Going to the Woodmen's Picnic Give Them Extra Work

Excursion crowds into the city this morning on both local roads gave extra work in the railroad yards. Outgoing regular trains on the St. Paul road were delayed. When the Mineral Point passenger train arrived four well filled coaches containing excursionists from Albany, Brodhead, Monroe and Ploverville were aboard and after some delay the cars were switched on the regular Rockford train. The Rockford bound traffic on the Northwestern road from Fond du Lac was not heavy.

THIS DAY IN HISTORY

1775—John Randolph of Roanoke born in Virginia; died 1833.

1810—John Godfrey Saxe, humorous poet, born in Hingham, Vt.; died 1887. Grace Aguilar, English Jewess and author, born at Buckeney; died 1847.

1881—Paul Emilio Littré, French philologist and historian, died at Paris; born 1801.

1882—Giuseppe Garibaldi, Italian patriot and soldier, died in Capri; born in Nice 1807. Garibaldi's life was one of romantic adventure from beginning to end. First an Italian patriot and exile, then a warring liberator in South America, where he won a wife worthy to share his dangers and honors; next a volunteer warrior in Italy, rejected by the leaders, victory and defeat following until he came more lived in exile. Finally he was recalled to his native land to become, after long struggles, the arbiter of its destiny.

1890—Matt Morgan, artist and cartoonist, died in New York, aged 45.

1896—Hon. Vincent D. Markham, a very distinguished jurist of Colorado, died at Denver; born 1829.

1907—Cabinet crisis in Spain; ministers resigned.

WILL BE RENOMINATED.

Superior Wave—The State, an anti-Scottish organ published at Madison, does not like it because our governor has been called the "war governor" by some of the state papers. The State also says "there is an effort being made by the governor and his friends to ride him into renomination on the strength of the war." What What nonsense! Gov. Scofield would have been talked of for renomination if there had been no war, and the editor of the State knows it. A large number of the republican papers of the state advocated the renomination of Gov. Scofield early last fall, and the editor of the State knows it. Still he calls it the machine. It has always been customary to give a second term to governors of Wisconsin. Why should the State be against Gov. Scofield for the second term? It has stuck hard in the crop of the editor of the State because Bob La Follette was honestly beaten out of the nomination at the state convention in 1896 at Milwaukee. If the editor of the State was present he knows it was done honorably—that Rock county was the first to break from La Follette, followed by Dodge. Still the State and its predecessor, Old Dane, have for some reason always had it in for Gov. Scofield, and the editor of the State can do his worst, but Gov. Scofield will be renominated by acclamation at the next state convention. Just put a pin there.

Alderman Carpenter struck the keynote when he said that the city must start in, at some time, to expend money for street work to better advantage. No change from an established custom can be made without a protest and the change would call forth as much opposition a year from now as it does at the present time. That the street work done heretofore has been unsatisfactory goes without saying and as the system recently adopted is as near equitable as it is possible to make it is not denied. To follow the plan will assure better streets at no increased expenditure and it may as well be put in operation now as any time.

La Crosse Republican and Leader—Republican papers are printing items now about "floods of letters" received from Madison offering to send sample copies of The State and asking for the names of influential republicans. There was never anybody down on the "machine" as hard as Mr. La Follette is. As for having a machine of his own the thought is abhorrent. He considers his method one of the potentialities of nature.

The courts have decided that the common council of Milwaukee cannot force the street railway company to reduce the fare from five cents to four cents, holding that the five cent fare only gives the street railway company a fair return on the investment, while the transfer system results in greater saving to the people than the proposed reduction in fare.

One of the most notable achievements of the American navy is the showing made by the Oregon. The vessel steamed 4,500 knots without stopping her engines. Your Uncle Sam can build ships as well as fight with them after they are built.

Milwaukee Sentinel—One of the local benefits of the present war has

been its effect in subduing the martial ardor of Joe Doe so completely that he is keeping his own counsel.

The Milwaukee Sentinel truly remarks that the Wisconsin soldiers will find it difficult to understand why Gov. Scofield's efforts for their welfare should make him a target for abuse.

The city seems to have a hard time in establishing an effective blockade on the Port of McMillan, Streets de Midway, and schooners are still passing over the bar at that point.

There was a hobby rider from Knapp, who for another man set a cow trap, but he fell in its jaws. And now this air he paws. As he yells "Wow!" This is no snap!

And, in all probability, Madrid is even now celebrating the "glorious victory at Santiago."

PASSED THE EXAMINATION

Horace McElroy Will Soon Be Assigned to Duty in the Navy

Ex-City Attorney Horace McElroy, who recently offered his services to the government as a naval officer, and who left but a few days ago for the east, notifies local friends by wire that he has passed the examination and will undoubtedly soon be assigned to duty.

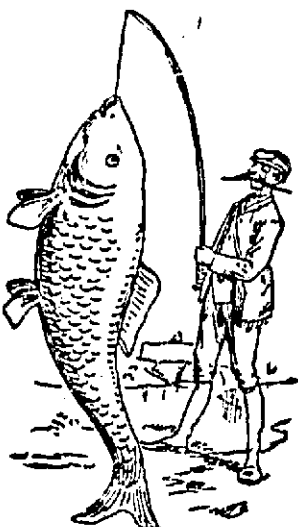

When Mr. McElroy left for the east it was thought that his examination would take place in Brooklyn, but on his arrival he found that an entire change of program had been made and that it was Washington instead of Brooklyn where the examination would be held. His host of local friends extend most hearty congratulations and it is to be hoped that the best of fortune may follow him through the present crisis wherever he chances to be.

President to Satisfy Himself. Washington, June 2.—The president is very desirous of visiting the Chattanooga camp in order to ascertain from a personal inspection of the troops now encamped their actual condition. Some days ago he reviewed the volunteers at Camp Alger, and, while pleased with the physical condition of the men, he was greatly surprised to find that they lacked nearly everything which a soldier should have. Mr. McKinley, it is said, will in the near future pay a visit to Camp Thomas.

Spanish Troops in Cuba. Madrid, June 2.—In regard to the reported illness of the Spanish troops in Cuba the inspector general of the sanitary department says the health of the army in Cuba is excellent. According to the last reports received the sick list has been reduced one-half, "as the forced marches have ended and the food has improved."

Iowa Troops Expect to Move. Des Moines, Iowa, June 2.—The prospects are that the Sixty-first regiment will leave Camp McKinley Saturday for Chickamauga. An order to be ready to be mustered in at once was sent to the Forty-ninth regiment by Capt. Olmsted.

Australia Joins with America. San Francisco, Cal., June 2.—The Australians are as keen for the success of America in the war with Spain as the Americans themselves. Advice by the steamer Moana show that the war feeling is intense.

Matthews May Be Colonel. Indianapolis, Ind., June 2.—Gov. Mount will offer another regiment to the war department soon, and ex-Gov. Matthews is suggested for its colonel.

SELECT THEIR TICKET.

Illinois Prohibitionists at Peoria—Initiative and Referendum.

Peoria, Ill., June 2.—The prohibition state convention Wednesday adopted a platform, nominated candidates for state offices and elected a new state central committee. The nominees are as follows:

State treasurer, William H. Boles, president of Alma industrial college, Alma.

State superintendent, Prof. A. E. Turner, president of Lincoln university, Lincoln.

Trustees of the University of Illinois, Mrs. Mary I. Barnes, Lacon, Marshall county; Mrs. Mary C. Metzger, Moline; Charles C. Griffith, Kansas, Ill.

The only debate on the platform was on a section declaring for the initiative and referendum, the debate being precipitated by a motion to amend by excepting moral questions. The convention could not agree, and the entire section was stricken out, but later Dr. Boles, the candidate for state treasurer, gave notice that he would move a reconsideration of the matter.

Hale Johnson, late candidate for vice-president, is permanent chairman, and W. A. Brubaker of Peoria permanent secretary, with Alonzo E. Wilson of Chicago and L. J. Gumbert of Macomb for assistants.

After the nomination of the state ticket the convention adjourned to 1 o'clock to-morrow.

The platform, stripped of its preamble, follows:

"Resolved, That we are opposed to the manufacture, importation and sale of intoxicating beverages.

"Resolved, That every Christian voter is under an obligation to carry his religion into political as well as domestic, social and business life.

"Resolved, That we, the prohibition party of Illinois, declare that the right of citizens to vote should not be denied on account of sex. All citizens should be protected by law in their right to one day of rest in seven, without oppressing any who conscientiously observe any other than the first day of the week. The American public schools, taught in the English language, should be maintained.

"Resolved, That in view of the fact that the prohibition party of Illinois is facing the most favorable conditions of the campaign ever made by the party in any state of the union, we take no backward step, and we therefore recommend to the state central committee that they retain O. W. Stewart and A. E. Wilson in their present positions and that they continue them as heretofore."

Milwaukee Carnival Week.
Carnival week at Milwaukee, June 27 to July 3, will rival the Mardi Gras at New Orleans. Those having the celebration in charge believe that the Wisconsin festivities will even be more attractive than those of the far famed southern city. At New Orleans there are only three evening attractions. At Milwaukee there will be six days and six nights of endless festivities. The grand pageant, illustrating the history of Wisconsin, will consist of twenty floats. These floats are rapidly nearing completion and are said by the contractor, who has devoted his whole life to this business, to be the finest he has ever yet constructed. Low fares on all roads and boats will be given for Carnival week.

During the summer of 1891, Mr. Chas. P. Johnson, a well known attorney of Louisville, Ky., had a very severe attack of summer complaint. Quite a number of different remedies were tried, but failed to afford any relief. A friend who knew what was needed procured him a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy which quickly cured him and he thinks saved his life. He says there has not been a day since that time that he has not had this remedy in his household. He speaks of it in the highest praise and takes much pleasure in recommending it whenever an opportunity is offered. For sale by People's Drug Co., corner Main and Milwaukee streets.

EXPOSITION IS OPENED.

Omaha's Great Show Begins—Enormous Crowd Present.

Omaha, Neb., June 2.—From the white house President McKinley started the electric spark which communicated the energy to the shafting of machinery hall, and amid the tumultuous shouts of thousands, the music of a hundred bands and the waving of flags the wheels began to turn. The Trans-Mississippi and International exposition was a reality and the dedicatory exercises were over.

Everything moved with the smoothness of a well-regulated military family, amid all the music, the cheers of the great throngs and the animated scenes in and about the domed and turreted structures composing the exposition.

The pageant extended over three miles of city streets. Throughout that distance people were packed and jammed. At least 200,000 witnessed the parade in this manner. Fifty thousand crowded the buildings along the line of march. In many instances even the tops of the houses were covered. It was 11 o'clock when the head of the procession reached the court of honor on the grounds. One thousand seats for the guests of honor and officials had been arranged. The whole was arranged in a semicircle facing the parade grounds.

At the center were bunched 600 musicians with various instruments, the National Marine band and the Thomas orchestra leading. At a signal from President Vatties, while the guests were being seated, every band played "America." The enthusiasm was intense. Thousands cheered and waved their flags. Some time was necessary to restore order. Then the Rev. Dr. Samuel J. Nicholson of St. Louis opened the formal exercises by invoking the divine blessing.

Remove Political Disabilities. Washington, June 2.—Wednesday's session of the house was given to the consideration and passage of a bill called up by Mr. Jenkins (Rep., Wis.) to remove all political disabilities incurred by the third section of the fourteenth amendment to the constitution. The passage of the bill affects but few parties, since the general acts passed in President Grant's administration and many special relief bills, have removed all disabilities with the exception of those in a few hundred cases.

Illinois Miners Will Arbitrate. Springfield, Ill., June 2.—The miners and operators of the Chicago and Alton submining district have decided to submit their differences to the state board of arbitration. The district includes the mines of Virden, Chatham, Auburn, Glard, Green Ridge, Nilwood, Carlinville and Litchfield, and nearly 1,500 miners are affected.

Samuel M. Ingalls Is Dead. Springfield, Ill., June 2.—A dispatch has been received here announcing the sudden death at Kenosha, Wis., of Prof. Samuel M. Ingalls, state superintendent of public instruction. He had been in declining health for over a year, due to a stroke of apoplexy.

BUILDING BLOWN UP.

Tar-Paper Factory of Tobias New & Co. in New York Destroyed.

New York, June 2.—A terrific explosion occurred Wednesday in the tar-paper factory of Tobias New & Co., on East Nineteenth street, in which a number of persons were seriously injured. The entire plant was wrecked and thousands of dollars' damage was done. No one was killed, but it is feared that some of the injured may die.

The injured are: Tobias New, the proprietor, Philip Greenfield, engineer, Victor Rosche, chief engineer, John O'Neill, engineer, Joseph La Mende, ragpicker, Unknown Italian woman, Leo J. Jahn, Solomon Jahn, Thomas Ryan, John Judge. The firemen think the explosion was caused by accumulation of tar gas.

Gunboats Shell a Blockhouse. Key West, Fla., June 1.—The United States auxiliary gunboat Uncas arrived here this morning from the Cuban coast. She reports that Monday last, while about a mile and a half west of Matanzas lighthouse, she sighted a Spanish blockhouse on shore. Taking up a position about six hundred yards off shore the Uncas fired two shots at the house and the two shells went clear through the building, which was wrecked.

Buying Supplies in Mexico. Mexico City, June 2.—It is reported that the agents of the Spanish government are buying cattle and grain here, hoping to smuggle it out of the country in tramp steamers, which will endeavor to run the Cuban blockade. The matter will be looked into by the government, which is determined to maintain strict neutrality. The Spaniards are working very secretly in the matter. Mexico has begun the export of wheat to Europe.

The Cuban question and political issues sink into insignificance with the man who suffers from piles. What he most desires is relief. Do Witt's Witch Hazel Salve cures piles. People's Drug Store.

If the Baby is Cutting Teeth. Give your child the old and well tried remedy Mrs. Winslow's Soothing Syrup, for children teething. It soothes the child, softens the gums, relieves all pain, cures wind colic, and is the best remedy for diarrhoea. Twenty-five cents a bottle.

Karl's Clover Root Tea is a pleasant laxative. Regulates the bowels, purifies the blood, clears the complexion. Easy to make and pleasant to take. 25 cents. People's Drug Co.

Milwaukee Drug Stores. E. B. Helmstreet, of Janesville, secretary of the Pharmacy board, has made his annual visit to the drug stores of Milwaukee, and reports 131 in the city. Every store in the city has at least one registered man. H. O. Frank, president of the State Board of Pharmacy, and Alderman Henry C. Schranck, who has been connected with the pharmacy board for years, left yesterday, accompanied with their wives, for Janesville, to visit Secretary Helmstreet.

Favored by French Tariff. Paris, June 2.—A decree was published today provisionally extending the benefits of the minimum tariff to various American products.

Won't Sail Before June 9. San Francisco, June 2.—It is thought that the second Manila expedition will not sail before June 9.
